**Live Online Tutoring for Students.** Glendale Public Library is offering live online tutor assistance in various subjects, including math, science, language arts, social studies and test preparation. The only requirement is a valid Glendale library card.

Subject-specialist tutors will be available seven days a week, in both English and Spanish, from 1 p.m.-10 p.m., at the library's website, [www.glendaleaz.com/library](http://www.glendaleaz.com/library). Just click on "Research Tools by subject" then "Education, Testing and Homework Help." "HelpNow" is the first link on the screen. Sessions can last 5 minutes, 10 minutes or even an hour. There are no session limits. Students can access the site from school, home or inside the library.

HelpNow is a product from Brainfuse. The company offers one-on-one tutoring via the Internet for students in grades 3-college.

How does HelpNow work? A student just logs-on to HelpNow from his/her computer, entering through the library's website. Select a subject and grade level. Enter HelpNow's online classroom to receive live help from an expert tutor. Participants will chat with an online tutor, using the program's own Instant Messenger.

Students can tackle the toughest assignments with HelpNow's easy-to-use whiteboard. Sessions can be saved and printed, to refer to later.
